RENATO MARCONDES DE SOUZA

IT Support & Infrastructure Analyst

Osasco, SP • +55 11 97268-3523 • renmarcsouza@hotmail.com • linkedin.com/in/renato-msouza

PROFESSIONAL SUMMARY

IT professional with over 15 years of experience in technical support, infrastructure, networking, and telecommunications, working in corporate, mission-critical, and multinational environments. Experience in N1/N2/N3 support, hardware, software, and connectivity troubleshooting, and administration of Windows environments, Microsoft 365, Active Directory, ServiceNow, and Microsoft Intune. Background in 24x7x365 mission-critical environments, infrastructure, vendor, and team management, as well as participation in IT migration and modernization projects. 6 years of international experience in New Zealand and advanced English.

PROFESSIONAL EXPERIENCE

Bilingual IT Support Analyst — Hitss Brasil

Dec/2025 – Jul/2026 (8 months) | São Paulo, SP

Temporary contract via Global Hitss, providing IT support to Covestro (German multinational chemical company), as the sole local resource in Brazil.

- On-site and remote L1/L2 technical support to end users, escalating higher-complexity incidents to global teams (USA)
- Support for Windows 11 and Microsoft 365 environments (including SharePoint, Teams) and corporate applications (SAP), as well as corporate laptops and mobile devices (Android and iPhone) via Microsoft Intune
- Ticket creation and handling via ServiceNow (ITSM), and basic support for user administration in Active Directory

International Experience — New Zealand — Personal Project

Aug/2019 – Nov/2025 (6 years 4 months) | New Zealand

International experience working at Mitre 10 and Bunnings Warehouse retail chains, in dynamic, multicultural environments with a focus on customer service.

- Assisted customers of varied profiles and operated point-of-sale (POS) systems, following company processes and policies
- Improved English proficiency in a multicultural professional environment, developing communication, adaptability, and problem-solving skills

IT Infrastructure & Telecommunications Coordinator — GAFOR S/A

Apr/2016 – Feb/2019 (2 years 11 months) | São Paulo, SP

Managed the Infrastructure, Support, and Telecom teams, reporting directly to the CFO, with responsibility for budget, vendors, service levels, and IT continuity.

- Annual IT budget planning (CAPEX/OPEX) and management of contracts, vendors, and service levels (SLA/SLO/OLA)
- Information security and business continuity, including contingency planning, compliance, and support for 24x7 critical operations
- Deployed management dashboards in Power BI, partnering with the Data Analytics team to support leadership with decision-making indicators
- Renegotiated mobile telephony contract (~40% cost reduction) and led ISO and Microsoft compliance audits

Network Administrator — GAFOR S/A

Feb/2014 – Mar/2016 (2 years 2 months) | São Paulo, SP

Managed IT infrastructure for GAFOR's headquarters and branches (20+ locations across Brazil and South America): networking, firewalls, servers, and N2/N3 support.

- Managed telecom vendors, switches (Cisco, Avaya), and SonicWall firewalls; provided Level 2 to end-users and Level 3 technical support to the IT support team, including the Windows environment and virtualized applications (Office, SAP, TMS, APData)
- Administered local servers: Windows Server, XenServer, XenApp, Active Directory, DNS, DHCP, MS SQL Server, backup, and continuity
- Migrated Exchange → Microsoft 365; deployed and supported IT infrastructure for the NDG Logistics warehouse (JV between Norbert-Dentressangle and Gafor, Cajamar/SP)
- Designed network topology for branch expansion, including remote locations

IT Support & Infrastructure Analyst — NEO Investimentos
Dec/2011 – Jan/2014 (2 years 2 months) | São Paulo, SP
Managed IT infrastructure for an asset management firm, focusing on servers, networking, and corporate application support in a mission-critical environment.

- Performed daily IT infrastructure availability checks before market opening, ensuring operational continuity for trading activities
- Administered and monitored physical and virtual servers (Windows Server, XenServer, Active Directory), networks, and firewalls (Cisco, SonicWall)
- Provided L1/L2 support to users and corporate applications, including the Bloomberg financial system
- Participated in a data center migration (UOL Diveo → Equinix) and voice/PABX modernization (Tadiran → Avaya)

Technical Support Analyst — Grupo Telepac Brasil
Apr/2011 – Nov/2011 (8 months) | Osasco, SP

- Provided L1/L2 technical support to users in Windows and Microsoft Office environments, and connectivity troubleshooting
- Maintained, assembled, and configured DVRs (Digital Video Recorders) for sale to banking institutions

Field Technician — AMC Informática Ltda
Jan/2007 – Mar/2011 (4 years 3 months) | Barueri, SP

- Provided field technical support to public agencies throughout the state of São Paulo (courts, city halls, health clinics)
- Resident technician at DAMF (Administration Office of the Ministry of Finance) for one year, including inventory control of parts and cartridges
- Deployment projects: Minas Gerais State Department of Health (Uberaba, Ituiutaba, and Uberlândia) and Pernambuco State Department of Public Safety (Recife)

Technical Intern — AMC Informática Ltda
Jan/2006 – Dec/2006 (1 year) | Barueri, SP

- Maintained Lexmark laser printers and multifunction devices in a lab environment, supporting field technical teams

EDUCATION

MBA in Data Science, Artificial Intelligence and Analytics — USP/Esalq (2026–Present)

Bachelor's Degree in Computer Science — Universidade São Judas Tadeu (2009–2013)

Technical Degree in Information Technology — FITO (Fundação Instituto Tecnológico de Osasco) (2003–2006)
